

# Prashant Chaudhary

Full-Stack Developer

Noida, Uttar Pradesh India +91 8126355455 prashantch004@gmail.com https://prashant-portfolio-one.vercel.app/

## Summary

Motivated and detail-oriented Full-Stack Developer with hands-on experience in building responsive web applications using JavaScript, Node.js, Express, MongoDB, and EJS. Passionate about clean, maintainable code and continuously learning new technologies. Proven ability to work on both front-end and back-end tasks, from form validation and dynamic UI to database integration and RESTful APIs. Strong understanding of the software development lifecycle, version control (Git), and teamwork in agile settings. Ready to contribute to real-world projects and grow as a developer in a collaborative environment.

## Experience

**Wipro** January 2023- April 2023  
Intern Noida  
https://www.wipro.com/

- Developed and maintained dynamic web pages using HTML, CSS, JavaScript, and EJS for client-facing interfaces.
- Integrated MongoDB to store and retrieve form data, improving data handling efficiency.
- Implemented session-based authentication and form validation to enhance security.
- Used Git and GitHub for version control and collaborated using pull requests

**Bluone** April 2023- June 2024  
Analyst Noida  
https://bluone.in/

- Resolved technical issues via remote tools.
- Diagnosed hardware/software problems and provided step-by-step solutions efficiently.
- Installed, configured, and updated software and hardware for office workstations.
- Used tools like Remote Desktop, TeamViewer, and Ticketing Systems.

**Pacific** July 2024-Feb 2025  
Junior Developer Noida  
https://www.pacificbpo.com/

- Built and maintained web applications using HTML, CSS, JavaScript, Node.js, Express, and MongoDB.
- Implemented user authentication, session management, and basic access control using Express-session.

**Savtech Solutions** Feb-2025-Present  
Fullstack Developer Noida  
http://savtech.in/

- Designed and developed a custom CRM web application from scratch using Node.js, Express, MongoDB, and EJS templating.
- Developed full-stack web applications using Node.js and Express for the backend and EJS for server-side rendered frontend views.
- Designed and integrated MongoDB schemas using Mongoose for structured and efficient data storage.
- Built dynamic forms with JavaScript to handle user input, real-time validation, and calculated fields (like totals, GST, etc.).
- Implemented features like session-based authentication, role/email-based access control, and CSRF protection.
- Created PDF documents (quotations, reports, challans) using PDFKit, with dynamic tables.
- Developed CRUD operations for modules like Projects, Employees, Store Inventory, and Site Reports.

## Education

**I.P College Campus 2 (B.S.R)** Jul 2019 - Aug 2022  
B.C.A

**Alingua Public School** Mar 2018 - May 2019  
Intermediate

**Alingua Public School** Mar 2016 - Apr 2017  
High School

## Projects

**CRM Web Application** 2025-03 to 2025-07  
Custom CRM system for managing projects, employees, and site reports.  
http://savtech.in:8000

A full-featured CRM built with Node.js, Express, MongoDB, and EJS for dynamic forms, authentication, PDF generation, and inventory tracking.

Node.js", "Express", "MongoDB", "EJS", "PDFKit", "Authentication", "Inventory"

**Savtech.in - Company Website** 2025-03  
Company website integrated with a custom-built CRM dashboard  
http://savtech.in/

Built a full-stack website and CRM dashboard using React for the frontend and Node.js/Express for the backend. Includes user authentication, dynamic reports, quotation/PDF generation, and inventory modules.

React", "Node.js", "Express", "MongoDB", "PDFKit", "Authentication", "Inventory", "CRM", "Full-Stack"

## Skills

### Frontend Development

Building responsive user interfaces using modern web technologies.

■■■■□□

["HTML", "CSS", "JavaScript", "EJS", "Responsive Design", "Form Validation"]

### Backend Development

Server-side development using Node.js and Express, with REST API design and authentication.

■■■■□□

["Node.js", "Express", "REST APIs", "Authentication", "JWT", "Session Management"]

### Database Management

Designing and integrating MongoDB databases using Mongoose for efficient data handling.

■■■■□□

["MongoDB", "Mongoose", "Schema Design", "CRUD Operations", "Data Modeling"]

### Version Control & Collaboration

Using Git and GitHub for version control and collaborative development.

■■■■□□

["Git", "GitHub", "Branching", "Pull Requests", "Commit History"]

### PDF Generation & Reporting

Generating dynamic PDF documents (e.g., quotations, reports) using PDFKit and Node.js.

■■■■□□

["PDFKit", "Dynamic Tables", "Document Styling", "Server-side Rendering"]

## Interests

### Tech Learning & Tutorials

["YouTube Dev Channels", "FreeCodeCamp", "MDN"]

### Problem Solving

["LeetCode", "HackerRank", "CodeWars", "Logic Building"]

## Languages

### English

Professional Working Proficiency

■■■■■□

### Hindi

Native or Bilingual Proficiency
